

Join in The **PEACE**PROJECT

-  **Pray** for peace in the Holy Land. Pray that a new generation of civic and economic leaders in Israel/Palestine will make peace and reconciliation their priority. Pray too for small business owners, teachers, peace activists, and pastors as they work to bring peaceful change to the region.
-  **Give** to support the work of the RCA and our partners as together we seek to support local business owners, farmers, schools, and ministries. Your generous giving will make a significant impact for peace and reconciliation. Make a donation at www.rca.org/peaceproject.
-  **Go** on a trip to Israel/Palestine to experience the Peace Project in person. Whether you go on an RCA study tour or work in an olive grove with local farmers, you will forever be changed by the experience.

Reformed Church in America • Radically Following Christ in Mission Together

For more information, email peace@rca.org.

 **The Peace Project** is your opportunity to walk alongside the brothers and sisters of Abraham who are hoping for, longing for, and actively seeking peace. The Peace Project is pro-Israel, pro-Palestine, and pro-justice...because at the center of it all, it is pro-Jesus.

 **Partnership** is at the heart of The Peace Project. We are working with World Vision International and other partners to provide a variety of opportunities to connect with people who live in the midst of crisis. We're coming alongside partners like the village of Aboud, Tent of Nations, Shepherd's Field School, and Bethlehem University.

 **Our commitment** is to partner with Christian ministries and leaders in Israel/Palestine to bring hope and vitality to the region through the witness of Jesus Christ in four areas:

- **Policy work** with governments that are influential in the Israel/Palestine peace process.
- **Reconciliation work** that helps moderate factions on both sides of the conflict establish relationships.
- **Economic development** that works toward all people being able to provide for their families and live full lives.
- **Education, advocacy, and leadership development** that helps the next generation build bridges of reconciliation.
